

CARNEGIE INSTITUTION OF WASHINGTON  
DEPARTMENT OF GENETICS  
COLD SPRING HARBOR, LONG ISLAND, N. Y.

September 29, 1945

Dear + necessary -

I am sending you, under separate cover, as many of my reprints as are available. Copies of some that you might be no longer available, for which I am sorry, but the ones on ring chromosomes and Madras - feline-like eyes are there.

Sorry not to have seen you when you were last in the spring. Would like to know about your present work. Hope it is going well.

Please give my best to Esther -

Lucy,

Barbara
